Hello,

Congratulations you have been selected to host a EXTENSION Qiskit Fall Fest 2025!

Who are my teammates?

The following organizers were accepted under your university or affiliation:

- Lead Organizer: Thirumalai M
- Co-organizer: Krishan Sharma

What does this mean?

You will work closely with IBM Quantum staff to create a workshop, challenge, hackathon, social event, coding competition, or other types of events with your own campus or organization!

What should I expect?

Expect exclusive graphics, seminars throughout the month of September with IBM Quantum speakers, new material, training sessions, and more!

What should I do before kickoff?

1. **Register for one the kickoff sessions [linked here](#).** *This is mandatory, but if you cannot make it, please find another team member to join or watch the recording back. **Session(s) will be held on Tuesday, September 2nd at 10:00am EDT and 8:00pm EDT.***
2. **Join the [discord here](#)!** On this platform you will see a "welcome-channel" that links out to a verification form. From there fill it out and submit. Within 2-3 business days you will receive full access to your assigned channels!
3. Note on your calendars that most sessions will begin at 9AM EDT on Tuesdays, Wednesdays, and Thursdays in the month of September.
4. Start discussing how often and when your group will get together to plan the event. Get a weekly schedule together with your team and discuss when you're thinking of hosting your event (in between October 1-November 24).
5. **Share with others your acceptance!** Download the attached and share your partnership with IBM Quantum using the hashtag #QFF25 #QiskitFallFest.

Besides that, you are all set! Congratulations on your achievement and acceptance. I look forward to working with you and seeing what your team is able to accomplish!

To accept your event assignment and team, you must fill out the form attached in the welcome channel on discord by the first kickoff on Tuesday, September 2nd. I look forward to seeing and interacting with you all soon!

--

Best regards,

Serena Godwin

IBM Quantum Program Manager
